

Planning for the next pandemic

Gundersen Lutheran and Kohl's Cares for Kids: Kids Care Kollege have partnered to offer a FREE program for parents and child care providers.

Pediatrician Kelly Hodgson Kline, MD, will join parents and daycare providers to present information on ways to protect the children you care for. She'll highlight the H1N1 virus as well as other common illnesses such as head lice, strep throat, impetigo, pink eye, respiratory illness, vomiting and diarrhea commonly found in the daycare setting.

Plan to attend on Tuesday, Sept. 22, from 6 to 7:30 p.m. at Northstar Middle School in Eau Claire. Space is limited, so register by Sept. 8.

To register, visit gundluth.org. Under Health Information, go to Classes/Support Groups and click on "Dealing with Illness...Planning for the Next Pandemic," or contact Jennifer Peterson at (800) 362-9567, ext. 53258.
